

## Bluefly\_GPS\_AddOn\_v12

### Case cutout template

50 mm

Instructions:

1. Print this template on A4 paper. Make sure the long side of the rectangle is 50mm long (you might need to play with the page setup settings for your printer).
2. Cut the solid black rectangle out from this piece of paper.
3. Cut the outline. Make sure it matches your assembled GPS\_AddOn with your Bluefly.
4. Align the center of the button with the button cutout on the case.
5. Cutout the GPS hole in the case.
